

Digital Forecourt Vacuum & Fragrance Tower

Easy, simple and reliable way to drive Forecourt revenues.

PCL's latest "V" range of Forecourt equipment includes a new Vacuum & Fragrance unit. The V96 incorporates the latest digital technology and is specifically designed for use on forecourts and commercial sites. The "V" range can operate with either cashless or coin or token.

Utilising a robust stainless steel cabinet as standard that can be bolted to the ground, the units include a powerful vacuum for trouble-free use and fast cleaning and with its bagless technology is simple to install, use and maintain. The Fragrance module comes with a fragrance gun with 3m armoured hose. The unit offers proportional price control between vacuum and fragrance allowing customers to swap during the vend.

Key Product Benefits

- Robust, good looking unit to attract customers to drive repeat revenues
- Customer friendly design with clear count down time to increase market share
- Low cost of ownership
- Bespoke options available to drive brand and revenues
- Range of payment options including cashless increasing security and lowering cash handling costs

- Removable cash box or vault - not required with cashless option
- Easy programmable purchase price and vacuum/fragrance time
- Range of payment options
- Proportional price control between vacuum and fragrance
- Display shows "VAC" or "FRA" with customer able to swap during vend
- Self-cleaning Goretex filters 98% of particles at 0.3 microns
- No paper bags required
- Removeable dust bucket 15 ltr / 3.3 UK Gallons
- 5m anti crush vacuum hose with crevice tool
- Available in stainless steel or powder coat

Model options

- Payment Options - Coin, token and cashless
- Bespoke graphical designs or branded options

Technical Specification

Part No: V960

Dimensions

	Cabinet	With Attachments
Height:	1425mm	1425mm
Width:	573mm	720mm
Depth:	480mm	480mm
Weight:		c.82kg

Environmental

Temperature Range: -20°C to +40°C

Electrical Interface

Voltage Nominal: Single Phase 230v AC

Current max: 7.6A

Typical idle: 0.1A

Operating Specifications

Noise Level @ 1m: 72dBa

Hose: 5.0m anti crush vacuum hose

3.0m armoured hose fragrance hose

IP Rating: Controller: IP65

Cabinet: IP44

Air Flow: 58 l/s

Self-cleaning Goretex filters 98% of particles at 0.3 microns
