

Workshop Pro Hose Reels

Offers enhanced functionality and excellent value.

Introducing PCL's new medium-sized Workshop Pro Hose Reels, specifically designed for use with compressed air in garages, workshops and industrial applications. The reels are available with different lengths and diameters of hose to suit user needs.

Designed with safety in mind, these new hose reels feature a slow retracting mechanism, taking up to 9 seconds to fully retract, preventing accidental loss of hose control during retraction, reducing the risk of injury or damage.

Auto retract is standard, neatly storing the hose with no kinks, tangles or effort allowing ease of use and reducing non-value added time. Each features a hose stop that stops in any position - and is adjustable at the flick of a lever. This new time-saving feature is an industry first.

The hose reels are easy to maintain, with built-in cleaning brushes now included as standard to avoid debris being taken back into the reel which can cause the layering system to fail.

DRIVEN BY AIR.

Steel wall mounting swivel bracket

Cleaning brushes

Adjustable hose stopper

Key Features & Benefits

- Slow retraction up to 9 seconds to retract - ensures safety in the workplace
- Easy to use adjustable hose stopper -Reduces non-value added time
- Auto retract Easily and smoothly rewinds the hose
- Built-in cleaning brush as standard to keep the hose clean
- High impact polypropylene construction for maximum durability
- Stylish product and packaging
- Copper tail outlet thread with dust cap
- Steel wall mounting 180° swivel bracket
- Supplied with fitted leader hose

Specification

Dimensions

L x W x H: 355 x 180 x 490 mm

Weight: 7.45 kg
Inlet & Outlet 1/4" BSPT

Material

Hose: PVC or Rubber/ PVC blend

Case type: Polypropylene

Pressure Measurement

Maximum working

pressure: 250 psi / 17 bar HRA3K01: 120 psi / 8 bar

Application

Compressed air only

Part No.	Hose Length	Hose I.D	Hose Material
HRA3L02	15 m	10 mm	PVC / Hybrid
HRA3L03	20 m	10 mm	Rubber / PVC blend

PCL is the world leader in the design and manufacture of tyre inflation and appreciated air products.
