

DRIVEN BY AIR.

Oil Extractor

Suitable for removing various types of oils, i.e. hydraulic, cutting and engine oils

DRIVEN BY AIR.

Oil Extractor

PCL Oil Extractors are reliable and easily operated and are ideal for changing oil on tractors, cars, boats, motorcycles, garden machinery and other types of engines.

They are also suitable for the removal of various types of oil, i.e. hydraulic, cutting and engine oils. Made from impact resistant materials, they are extremely corrosion resistant, user friendly and easy to operate.

- Simple, single person operation
- Quick, clean and efficient
- Oil flow is infinitely adjustable and easily regulated by the trigger

OE147160

Oil Extractor

Working Pressure: 6-12 bar (87-174 psi)

Air Consumption @ 8 bar: 180 l/min (6.4 cfm)

Container: 1.2 litre

Vacuum: min 60%

Air Inlet: Rp 1/4

Part Number	Description
OE147160	Oil Extractor
