

DRIVEN BY AIR.

## Safety Blowguns

High quality unblockable Safety Blowguns for all cleaning purposes

**Safety Blowguns**

A comprehensive range of safety blowguns offering high air flow, unblockable nozzle ends and low noise levels

- User friendly design
- Robust and impact resistant material
- Guaranteed long service life
- Guaranteed leak-free valve system, even after millions of operations
- Increased air flow options

**BG5006**  
**Low noise level**  
**(meets OSHA standard)**

- Max 16 bar (232 psi)
- 280 l/min (9.8 cfm) @ 8 bar
- Noise @ 8 bar < 78 dB
- -10°C to +60°C

**BG5005**  
**Aircurtain with increased air flow,**  
**low noise level**  
**(meets OSHA standard)**

- Max 10 bar (145 psi)
- 580 l/min (20.5) @ 8 bar
- Noise @ 8 bar < 78 dB
- -10°C to +80°C

**BG5009**  
**2 bar automatic pressure reduction**  
**Low noise level**  
**(meets OSHA standard)**

- Max 16 bar (232 psi)
- 140 l/min (4.9 cfm) @ 8 bar
- Noise @ 8 bar < 82 dB
- -10°C to +80°C

**BG5008**  
**TURBO nozzle**  
**increases air flow by 100%**

- Max 16 bar (232 psi)
- 380 l/min (13.4 cfm) @ 8 bar
- Noise @ 8 bar < 90 dB
- -10°C to +80°C

Part Number	Description
BG5005	Aircurtain–high air flow
BG5006	Low noise–meets OSHA
BG5008	TURBO nozzle
BG5009	2 bar automatic pressure reduction
